

one simple step

take back your meds
on April 22nd

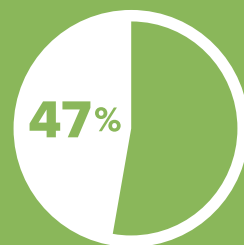

Location:

Time:

Protect your loved ones by disposing of unwanted, unused or expired opioid prescriptions safely at a Take Back Day site.

PROTECT YOUR LOVED ONES

Nearly half of people misusing pain relievers, including prescription opioids, get them from a friend or family member.¹

Last year, Washington residents returned 16,565 lbs of medication on National Take Back Days. Over 311,000 lbs of medication has been safely disposed of at Take Back Day sites since 2016, reducing access to expired, unused, or unwanted medication.²
